## The Evening Standard

William Glasmann, Publisher  
An Independent Newspaper  
(ESTABLISHED 1870.)

This paper will always fight for progress and reform, it will not knowingly tolerate injustice or corruption, and will always fight demagogues of all parties. It will oppose privileged classes and public plunderers. It will never lack sympathy with the poor, it will always remain devoted to the public welfare and will never be satisfied with merely printing news. It will always be drastically independent and will never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.

## PROGRESSIVE REPUBLICAN TICKET

For President  
**THEODORE ROOSEVELT**  
of New York  
For Vice-President  
**HIRAM JOHNSON**  
of California

### ELECT THE PROGRESSIVES

Citizens of all parties are quite unanimous in declaring that Utah's state government is in need of a general shaking up. Nothing would so completely clean the barnacles from the ship of state as the election of the Progressive ticket this fall.

### WHERE THE TRIBUNE SHOULD STAND.

The Salt Lake Tribune thinks well of the Progressive movement in Utah, but it still wants to stand by Taft. It intimates that it may be with the Progressives after this year. Come now, Tribune, remember the old saying, "A stitch in time saves nine." Roosevelt needs your support this year. The people need your support this year as well as next year. It may be too late next year. Also remember effective re-inforcements may bring victory.

Even if the Tribune does not lead in the progressive movement in this state, the effective re-inforcement of the Tribune and Telegram could win the fight for Roosevelt in Utah.

Eliminate the personal differences between Senator Kearns and the ex-President. All Utah knows that at a critical moment, Theodore Roosevelt saved Reed Smoot's seat in the U. S. senate and that is why there is a difference between ex-Senator Kearns and the ex-President.

Be big, Thomas Kearns, and say that one man is nothing in the great fight of the people. The people will know the sacrifice of feeling you make, if you forgive Teddy for having defeated you in your fight against Reed Smoot. You know that the odds against you were so great that there should have been no humiliation in defeat.

We are holding the fort, Mr. Kearns. Bring up the re-inforcements!

### ARE STATE TAXES INCREASED

The Salt Lake Herald-Republican, with a great hurrah, shouted that Governor Spry had reduced the state taxes one-half a mill on the dollar. That is only partly true. The tax levy has been reduced one-half mill; that is, the state tax levy last year was 8 mills, this year it will be 7 1-2 mills. But now comes the Salt Lake Tribune and points out that the value of the state's property has been increasing from about \$186,000,000 to 200,000,000 and that 7 1-2 mills on the last amount brings in more money than 8 mills did on the first amount. If that is true, and the last published report of the state board of equalization say it is true, where then is the economy of our present state officials? The facts are as follows:

In round numbers the assessed valuation of Utah property in 1910 was 186 million dollars and a tax levy of 8 mills brought in \$1,488,000. This year 7 1-2 mills will bring \$1,500,000 on 200 million dollars assessed valuation. The state government actually receives \$12,000 more money under the 7 1-2 mill levy than two years ago.

If the Republicans of Utah expect to fool the people of Utah by such claptrap talk of tax reduction they will discover their mistake on election day.

The Salt Lake Tribune asks why so much money is collected from the people when over two million dollars of the state money is deposited in pet banks, not drawing one cent's interest.

Read the following from the Tribune:

#### Its Tax Pleas Dishonest.

With two and a half millions of dollars lying idle in the State treasury, the State Board has made a pretense of reducing the levy for State purposes. Valuations were raised all over the State and the paltry half-mill cut from the levy reduced the amount to be collected from the whole State but \$100,000.

At four per cent per annum the immense sum in the State treasury should earn \$100,000 every year, and easily make up that amount to the taxpayers of the State.

The county assessor places the valuations on city property as well as county property, and the county treasurer collects from the city as well as from the county. As a result, the county has a large surplus on hand most of the time, belonging to the city as well as to the county. This, too, lies idle in the bank without earning a penny's worth of interest to the taxpayers.

Both the State and county are under the domination of a political machine, and all the officials, except those hated by the bunch, are answerable to a party boss.

The city commission has incurred the enmity of that boss by requiring banks to pay the interest on deposits and by adopting other business methods at variance with well-established policies of the machine. . . . It is of no lasting benefit to the Republican party nor to any one else to conceal the truth in one case and state falsehoods in another; to screen a party machine and misrepresent the people themselves.

Sooner or later the taxpayers will find out the facts, and the motives of the bosses will be laid bare. No religious or political organization will be able to back up that sort of spietwork and double dealing and escape untainted. No man or newspaper can afford to be unfair, and spiteful all the time, or to embarrass organizations by making them parties to his grievance or agents of his vengeance.

## Good Times This Fall

The present indications are that all Weber County Crops will be bigger and better, and demand a better price generally than ever before. That, of course means wealth for this community. Let's resolve now to keep as much as possible of it at home.

**Riverdale Flour** Made in Ogden

### PLEASURE LAKE TOO DEEP.

There have been many drownings at Lagoon and the fatality of yesterday prompts the question:

Why should the artificial lake at Lagoon, one in which so many incapable of swimming or of rowing a boat are allowed to risk their lives, be more than three or four feet deep?

Three feet of water would be deep enough for all purposes and make impossible such distressing accident as that of Sunday.

Another suggestion: The scenic railway at the resort has cost more than one life. Many people enter the amusement cars wholly unconscious of the fact that there is a great element of danger in the irregular motion and rapid descent of the cars. Attendants take it for granted that those entering the cars know they must hold on and guard against the sudden lurching or fall, but not one in a dozen is aware of the chance to be taken, and that accounts for the broken heads.

No amusement place should have dangerous attractions without properly safeguarding the public.

### HOBGOBLINS OF THE REACTIONARIES

The Standpat press is beginning to work the bugaboo scare that if Wilson or Roosevelt is elected, bankers and manufacturers will frighten and bring on dull times.

When a farmer has a horse that shies at an automobile or a train, or any other progressive thing, he drives the animal up to the object of its fright, until the senseless alarm of the brute is overcome.

Why should not the people drive the money lenders and the beneficiaries of government favors up to the object of their alarm and force them to see the error of trying to balk at every advancement demanded for the common good? This balking of the money sharks must be ended, if not today, then tomorrow, because this country cannot go forward if it is to be held back by the perversity of a few men.

Roosevelt has been President of the United States. He was President during the period of greatest prosperity this country has known. To say that to elect him again would endanger the business of the country, is to attempt to frighten the voters of the country in much the same way that children are frightened by stories of hobgoblins.

## LABOR NEWS OF ALL COUNTRIES

A committee representing the Street and Electric Railway Employees' Union of the entire Michigan United Traction system, has been successful in securing an agreement for one year.

The Central Labor Union, of Brooklyn has set itself the task of obtaining the renomination of Congressman James P. Maher, who is National Treasurer of the United Hatters of North America.

The underlying principle of all labor legislation is that the industries should, as far as possible bear the burden of the cost entailed by accidents to workers engaged therein. There are 1,600,000 children today under the age of 16 years who are employed, in addition to another million in agriculture, only a part of whom are assisting their parents on the farm.

The Master Builders' Association of New York declare that while women will be admitted to its trade school, soon to be opened, they will attend only to learn the business side of building work.

The British Labor Party has backed down from its announced intention of deserting the House in a body because the Liberals insisted on contesting Hanley and Crewe, where Labor candidates are in the field.

A Massachusetts law which compels public institutions to purchase from prison commission prison-made goods has been amended this year so that it will include all city officers and departments.

There is to be opened in Cincinnati a co-operative club for working girls. They are to be given rooms at the cost of \$1 a week, while their meals will cost 35 cents a day. It is to be a "real home" and no profits.

A new profession has been taken up by women in the South American cities. On the trolley cars, even in the busier streets, the female conductor has long been an important factor in the rapid transit situation.

Occupations dangerous to health or morals are singled out by some few States and forbidden to minors under 16 or 18 or 21, as for example, the messenger service is now regulated by special laws in New York and nine other states.

Farmers, mechanics, railroaders, laborers, rely on Dr. Thomas' Eclectic Oil. Fine for cuts, burns, bruises. Should be kept in every home. 25c and 50c.

## MUST FIGHT OR GET OUT

Mormon Homes In Mexico Raided By Rebels—Americans Fleeing

El Paso, Texas, July 29.—Americans in northern Mexico have been officially notified by rebel commanders to give up their arms and leave the country. An only alternative is to join the rebel ranks and fight against the republic. Refugees from the Mormon colonies in Chihuahua are flocking to the border. The first group, of nearly 1,000 men, women and children, is due to arrive here by special train today.

News of the unexpected development was received here yesterday by representatives of the Mormon colonists. A. W. Ivins of Salt Lake City, an apostle of the Mormon church, is making arrangements for the reception of the refugees. They will be housed in the city. If necessary, the 23 Pao customs building will be thrown open to them. Apostle Ivins has tele-

graphed complaints to Senator Smoot of Utah and Governor Colquist of Texas.

Take Mormon Gun.

According to advices received here, rebels armed with an order from General Ynez Salazar, commander at Casas Grandes and vested with authority from General Orozco, commander-in-chief of the rebels, visited the home of the Mormons in Colonia Dublan on Saturday and confiscated 500 rifles and much ammunition. This also was done at Colonia Juarez, a neighboring settlement and 100 rebel cavalrymen were dispatched to Colonia Morelos, another American settlement to the east. The colonists were told to give up their arms and leave Mexico or join the rebel army. It was reported that stores were looted in Nueva Casas Grandes and a Chinaman killed when he refused the rebels the right to enter his store. The American population of Colonia Juarez and Dublan is more than 1,500 and all women and children and many men are leaving on a special train made up on the Mexico Northwestern railway.

Situation Critical.

That this is but the beginning of a general movement to disarm the many Americans remaining in northern Chihuahua is apparent. It is said that the rebels plan to raid Madera, where the wood working mills of the Pearson corporation are located, and this may bring trouble as American lumberjacks employed there are expected to fight. It is known that the Americans there are fortified with light artillery, many rifles and ample ammunition, with a high barbed wire fence, built for protective purposes, surrounding a barracks.

Ivins Tells of Exodus.

Apostle Ivins said last night that the Mormon colonists south of Juarez deemed it best to leave Mexico in view of their being disarmed and that would send out all women and children. The train due here before morning is carrying 350 persons, few of whom are men.

Apostle Ivins denied knowledge of a general movement of all colonists in Mexico, saying that he had received advices only from Juarez and Dublan colonies. He also denied that he had taken up the matter with Washington, saying that the exodus was peaceable and that no violence had been done by the rebels.

## BUSINESS IS GOOD

Just drop in Greenwell's and see how many of your friends you will meet.

**WHY?**  
Our ICE CREAM, SODA and FANCY SPECIALS cannot be surpassed in the state.  
NOTE—We deliver ice cream to any part of the city.

**GREENWELL'S**  
356 25th Street—Phone 1188-W. "Just Around the Corner."

## NEW WHEAT AND OLD

New wheat is now on the market and it may be that some mills are grinding it. New wheat, to be suitable for making flour, should not be ground until it has had ample time to "condition," and this takes several weeks.

"Crescent" Flour is made from OLD wheat and will be made from OLD wheat until the new wheat is in perfect condition. We have an ample stock of old wheat flour, and to be sure of the genuine article, ask your grocer for "CRESCENT FLOUR."

**CRESCENT FLOUR**  
UTAH MILLING CO.

## Lest you forget, we say it yet—Eat Brown's Delicia

Not just as good—but better. Delivered to all parts of the city. Packed in ice. From One Quart up.

Notice—Will you please telephone us if you have one of our red or yellow packers.

Phone 982. Prices the same.
